AGENDA FOR THE REGULAR MEETING OF THE BOARD OF DIRECTORS OF THE TEMESCAL VALLEY WATER DISTRICT AUGUST 23, 2022, 8:30 A.M. AT THE DISTRICT'S ADMINISTRATIVE OFFICE 22646 TEMESCAL CANYON ROAD, TEMESCAL VALLEY, CALIFORNIA 92883

The following is a summary of the rules of order governing meetings of the Temescal Valley Water District Board of Directors:

AGENDA ITEMS

In case of an emergency, items may be added to the Agenda by a majority vote of the Board of Directors. An emergency is defined as a work stoppage; a crippling disaster; or other activity, which severely imperils public health, safety or both. Also, items, which arise after the posting of Agenda, may be added by a two-thirds vote of the Board of Directors.

PUBLIC COMMENT

Persons wishing to address a matter not on the Agenda may be heard at this time; however, no action will be taken until placed on a future agenda in accordance with Board policy.

NOTICE TO PUBLIC

All matters listed under the Consent Calendar will be voted upon by one motion. There will be no separate discussion of these items, unless a Board Member or member of the public requests that a particular item(s) be removed from the Consent Calendar, in which case, they will be considered separately under New Business.

IF ANYONE WISHES TO SPEAK WITH THE BOARD ABOUT ANY CONSENT CALENDAR MATTER(S), PLEASE STATE YOUR NAME, ADDRESS, AND APPROPRIATE ITEM NUMBER(S).

ACTION: Director Myers moved to approve the minutes as written. Director Butler seconded. Motion carried unanimously.

5. Payment Authorization Report.

ACTION: Director Harich moved to approve the June 28-July 26, 2022 invoices. Director Myers seconded. Motion carried unanimously.

6. Revenue & Expenditure Reports. (Unaudited).

a. Revenue & Expenditure Reports.

ACTION: Note and file.

b. Bad Debt Write-off.

ACTION: Director Myers moved to authorize the write-off of \$7,433.88 in delinquent accounts. Director Harich seconded. Motion carried unanimously.

7. Annual Meeting of the TVWD Financing Corporation.

- I. President Colladay called the meeting to order at 9:40 a.m.
- II. Report on status of projects None.
- III. Approval of July 27, 2021 meeting minutes.

ACTION: Director Harich moved to approve the minutes as presented. Director Buckley seconded. Motion carried unanimously.

IV. Appointment of new officers.

ACTION: Director Butler moved to mirror the positions of the TVWD Board. Director Buckley seconded. Motion carried unanimously.

- V. Public Comment None.
- VI. Other Business None.
- VII. President Colladay adjourned the TVWD Financing Corporation meeting at 9:43 a.m.

8. Public Hearing on FY 2022/23 Budget for CFD's 1, 2, 3 & 4 and Fees & Charges to be collected on the General Tax Roll.

- a. Director Colladay opened the Public Hearing at 9:43 a.m.
- b. Public Comment None.
- c. Discussion of budgets, fees and charges.
- d. Director Colladay closed the Public Hearing at 9:47 a.m.
- e. Resolution No. R-22-04 Adopting the Report Regarding Water and Sewer Service Standby Charges for FY 2022/23 to be collected on the tax roll.

ACTION: Director Myers moved to adopt Resolution No. R-22-04. Director Buckley seconded. Motion carried unanimously.

f. Resolution No. R-22-05 Adopting Current Standby Rate Schedule for Fiscal Year 2022/23.

ACTION: Director Buckley moved to adopt Resolution No. R-22-05. Director Harich seconded. Motion carried unanimously.

g. Resolution No. R-22-06 Adopting the FY 2022/23 budgets as presented for CFD's 1, 2, 3 & 4.

ACTION: Director Harich moved to adopt Resolution No. R-22-06. Director Buckley seconded. Motion carried unanimously.

- h. Resolution No. R-22-07 Levying a Charge for the Payment of Maintenance and Operation Expenses for Sewer Treatment Plant Serving Sewer Improvement District No. 1 for FY 2022/23.
- **ACTION:** Director Harich moved to adopt Resolution No. R-22-07. Director Buckley seconded. Motion carried unanimously.
- i. Resolution No. R-22-08 Levying a Charge for the Payment of Maintenance and Operation Expenses for Sewer Treatment Plant Serving Sewer Improvement District No. 2 for FY 2022/23.
- **ACTION:** Director Harich moved to adopt Resolution No. R-22-08. Director Buckley seconded. Motion carried unanimously.
- j. Resolution No. R-22-09 Authorizing the Levy of Special Taxes for CFD No. 1, Sycamore Creek, for Fiscal Year 2022/23.
- **ACTION:** Director Harich moved to adopt Resolution No. R-22-09. Director Buckley seconded. Motion carried unanimously.
- k. Resolution No. R-22-10 Authorizing the Levy of Special Taxes for CFD No. 2, Montecito Ranch, for Fiscal Year 2022/23.
- **ACTION:** Director Harich moved to adopt Resolution No. R-22-10. Director Buckley seconded. Motion carried unanimously.
- 1. Resolution No. R-22-11 Authorizing the Levy of Special Taxes for CFD No. 3, The Retreat, for Fiscal Year 2022/23.
- **ACTION:** Director Harich moved to adopt Resolution No. R-22-11. Director Buckley seconded. Motion carried unanimously.
- m. Resolution No. R-22-12 Authorizing the Levy of Special Taxes for CFD No. 4, Terramor, Improvement Area No. 1 for Fiscal Year 2022/23.
- **ACTION:** Director Harich moved to adopt Resolution No. R-22-12. Director Buckley seconded. Motion carried unanimously.
- n. Resolution No. R-22-13 Authorizing the Levy of Special Taxes for CFD No. 4, Terramor, Improvement Area No. 2 for Fiscal Year 2022/23.
- **ACTION:** Director Harich moved to adopt Resolution No. R-22-13. Director Buckley seconded. Motion carried unanimously.

9. Trilogy Development.

- a. Homeowners Association update.
- b. Golf Course update.

10. Retreat Development.

a. Project Update.

11. Terramor Development (Forestar Toscana).

- a. Project Update.
- b. 1443 homes to be built. 967 houses occupied to date. 67% complete.

12. Kiley Property Development.

- a. Project Update.
- b. 79 houses to be built. 0 houses occupied to date.

Board of Directors Temescal Valley Water District

RE: General Manager's Report

Dear Board:

The following is a brief status report on several issues that I have been involved in since the last meeting.

- Water Supply Availability Restrictions
 - o New access to Local Water with Sterling Pump Station Western Letter
 - o 7-29-2021 Western's Water Resource Manager indicated MWD has more water in storage than in any time in its history, approx. 3 million acre feet. As of now there is no pressure from MWD to restrict water demands. They will illustrate alignment with the Governor's request for 15% voluntary reduction with increased marketing for efficient water use and participation in rebate programs. Western will be rolling out a regional outreach effort in partnership with Eastern MWD, Inland Empire UA, and Valley District. We will make these messages/materials available to you when available.
 - o 8-19-2021 MWD has a current message that requests a voluntary 15% reduction
 - o 4-21-22 SWRCB Zero SWP allocation possible/ new restrictions on outdoor irrigation possible/Western not reliant on SWP this water year –
 - o Restriction on Ornamental Turf coming in June.
 - o Possible requirement to go to Conservation Stage II in June
 - o Final State Water Resources Control Board requirement for Stage II and Turf
 - District in Stage II and working with HOAs on watering restrictions and Ornamental turf removal.
- Working on non-potable water supply improvements
 - O Park Canyon Drive RW line Property owner has agreed to build the RW line along Park Canyon to our existing pipeline from the sump well.
- Working on Conservation opportunities and RW/NP conversion locations
 - o Reviewing all 2" potable irrigation meters for potential conversion to RW.
 - o Map complete reviewing opportunities to convert to Non-potable or RW
- Working with Land Developers on water and sewer fees for multiple infill projects.
 - Deleo adjacent to Tom's Farms no news
 - o Retreat Infill Kiley Court Plans signed new Will Serve sent
 - o Temescal Canyon Road at Campbell Ranch Road Taylor Morris purchased property, Received a construction meter for grading. Grading started. Signed plans for water, sewer,

- and RW. Grading continues. Sewer construction started. District fees have been paid and models in construction.
- o Kiley Family Trust Property Tract Map Stage Public Hearing scheduled W & S plans submitted Requested water system study. Plans ready for signature
- Amazon Fulfillment Center (Rinker Property) Map Stage Preliminary W & S plans reviewed. Amazon dropped out but the developer is continuing with a plan for commercial buildings.
- Terramor CFD CFD 4 annexation of Phase 2 completed Constructing the WRF expansion. Annexation of final PA in Phase 2 completed Working on Phase 3 Water, Sewer and RW plans. Working on second Bond issuance for IA 2. Bond Issuance for IA2 complete
- Annexation of IA3 is started. Annexation complete for phase 1 of ID 3
- Terramor Review:
 - o Phase 3 –Reviewed phase 3 water and sewer plans ready for signature.
- Terramor Onsite Water, Sewer and RW improvements
 - O Work continues Improvement Area 2 Richmond America, Pardee and Pulte. Grading of Phase 3 pads will be complete in August. Developer currently building the upper zone booster.
 - Upper booster complete and in operation final testing and connection to SCADA in the works
 - o Work continues on the water, sewer and RW in ID 3
- WRF 225K GPD upgrade
 - o The WRF is finished a few final warrantee items outstanding. Warrantee items complete retention released
- New Storage Building
 - o Received three prices on the building above Cap budget amount looking for ways to reduce the cost.
 - Proposals on August meeting agenda
- AMI/AMR Meter Reading system upgrade
 - o Research continues different data collection systems, software and meters.

MEMORANDUM

DATE: August 23, 2022

TO: Board of Directors

Temescal Valley Water District

FROM: General Manager

SUBJECT: Storage Building CIP Project G-2-2021

BACKGROUND

The Storage building was budgeted in FY 21/22 for \$205,000. Staff solicited prices for the standard building and receive three quotes. The prices revealed that market forces had driven the price above the original budget. In FY 22/23 the Board allow staff to increase the budget to \$370,000.

ACTION REQUESTED

Approve the building quote from SteelWood Construction in the amount of \$313,408.62 and authorize the General Manager to construct the building and complete the interior for storage.

FISCAL IMPACT

Building Complete \$313,408.62 Contingency \$31,400.00 Shelving, Lighting, misc. \$25,000.00 Approximate Total \$370,000.00

RECOMMENDATION

To be made by the Board of Directors:

Respectfully submitted,

Jeff Pape

General Manager

Established in 1965

Project Name: New Spare Parts Building

Project Department: General Purpose

CIP Project No.: G-2-2021

Total Project Cost: \$ 370,000 Updated Pricing from 3 bids

Project Description:

The District currently has a spare parts inventory that includes, pumps, motors, meters, valves, hoses, specialized equipment and general spare parts for the Potable Water, Recycled Water and Wastewater Treatment Plant. This spare part inventory is need for critical items and long lead items to insure replacement equipment is available as needed. Our current parts/ truck storage building is too small to adequately organize and store the equipment properly. With this new building we will have one building for vehicle and motorized equipment and one building for parts. The new building wil be located on a pad we reserved behind the sludge digesters.

Preliminary Proposal for 5000SF Pre Engineered Metal Building including Foundation

Date: June 21, 2022

Customer Address & Project Site:

Temescal Valley Water District 22646 Temescal Canyon Road Corona, CA 92883 ATTN: Jeff Pape

MBMA End Use Category: 3B - Commercial Warehouse & Storage

The pricing breakdown is as follows:

Provide and install a 5,000 SF Pre Engineered Metal Building with foundation and slab on grade as described below:

Supply, Delivery, Erection, Freight, Taxes (Per Exhibit A" Scope of Work) TERMS:

\$_313,408.62_

- · Site to be in a level condition
- Due to steel price volatility proposal in effect for 30 days, building to be ordered within that period or is subject to price increases.
- · Deposit required are as follows:
 - Deposit is due at initial contract (25%),
 - o Deposit due at completion of drawings (25%),
 - Deposit due at approval for production (40%) and
 - Final 10% due upon completion.
- A monthly service charge of 1.9% will be added on all past due invoices
- Bottomline Steel Buildings southwest, LLC reserves the right to file a mechanics lien against contracted property and pricing based on one-move in.

Sincerely,

Ron Rector & Grant & Destache

EXHIBIT "A" - SCOPE OF WORK

METAL BUILDING SCOPE OF WORK:

- A. Provide metal building Engineered Drawings for project Permitting and Erection.
- B. Supply all materials for 50'0" x 100'0" PEMB with eave height of 15'0" and a 3/12 pitch in the roof with bypass girts and rod bracing.
- C. Supply Pre-Engineered Metal Building's roof panels, pre-painted white man door with mortise lockset, closer, out swing, R11 roof and wall insulation, pre-painted exterior gutters & downspouts and trim.
- D. Provide labor and equipment to erect buildings.
- E. Provide Calculations, Anchor Bolt Drwgs, 2 sets of Agency Permit Submittal Drawings and Erection Drawings.
- F. Designed using ICBO2018, 100mph Wind Speed and Local Rainfall Intensity.
- G. Collateral Loads for standard roof is 3.0 PSF.
- H. Provide openings for 2-12'0" x 12'0" sectional doors, 3'0" x 7'0" man door and a 7'0" x 16'0" opening for owner door system.
- J. Provide Signature 200 Paint as follows:
 - · Wall Panels Desert Sand
 - Roof Panels Desert Sand
 - Wall Corners, Fascia, Door Trim, Gutter & Downspouts Desert Sand
- K. Provide and Install 2-12'0" x 12'x0" manual chain hoist Overhead Doors 24 gauge non-insulated.

PEMB PROPOSAL EXCLUDES:

- 1. Excludes, the supply of and installation of all louvers, vents, eaves and soffits, and storefront glazing and windows, aluminum frames and glass.
- 2. Excludes overtime work done after-hours or on weekends unless pre-negotiated
- 3. Excludes concrete foundation, slab on grade, anchor bolts, foundation design, miscellaneous steel, special deflections.
- 4. Excludes plans, permits, fees and responsibility for compliance to codes other than stated in this proposal, secure storage, light gauge framing, demolition, guardrails, partition walls, ramps, signage, metal studs, louvers, liquidated damages and splash pans, all mezzanine construction, supplies and support and design.
- 5. Excludes special inspections, accessories, stairs & handrails, roof tie-ins, crane rail, misc. steel, concrete planks, canopy screens, canopy frames and roof screening
- 6. Excludes cost of security guard, water, and electricity during construction, dumpster. (Provided by others), engineering and staking, traffic and pedestrian control.
- 7. Excludes noise and dust control barriers.

STRUCTURAL ENGINEERING SCOPE OF WORK:

Provide Structural Design, Calculations and Drawings for the foundation and slab on grade as required to construct a 50'0" x 100'0" PEMB per ICBO 2018 Building Code.

CONCRETE SCOPE OF WORK:

Grade and construct footings and foundation for 50'0" X 100'0" steel building per plans and specifications provided.

Grade to level proposed building site:

 Rough grade yard as required to create a level building pad, remove and stockpile all excess soil on site.

Excavate footings and foundations:

- Excavate footing at perimeter of proposes building pad 24" depth by 12" width plans and specifications provided, , remove and stock pile all excess soil on site
- Excavate pad footings at required locations per plans and specifications provided, , remove and stock pile all excess soil on site
- Compact bottom of footings using wacker compactor to achieve the required 90' compaction
- Wet and wheel roll building pad to achieve 90' compaction as required
- Furnish soil sampling, compaction testing and compaction report as required for proof of compaction
- Furnish and Place 4" of sand on building pad per plans and specifications provided

Form and Place all reinforcing steel and foundation bolts:

- Install #4 rebar in footings per plans and specifications provided
- Install #4 rebar grid 16" OC on building pad per plans and specifications provided per plans and specifications provided
- Place all required foundation bolts at the required points on building slab per plans and specifications provided

Pour, Finish and sawcut concrete:

- Furnish and place 4000 psi concrete in footings per plans and specifications provided
- Furnish and place 6" inches of minimum 4000 psi concrete on building pad per plans and specifications provided
- · Concrete pad will have a smooth finish
- Sawcut the required control joints in concrete per plans and specifications provided.

<u>Design of concrete footings and foundation walls including steel reinforcement normally performed by a Professional Structural Engineer to be supplied and are excluded from this proposal.</u>

Price will be subject to change at the time of order if the actual building code and / or design information differs from what has been quoted. Selection of applicable code and load requirements for specific location is the sole and exclusive responsibility of Buyer.

All of the costs for the above items are supplied with industry standard materials without specific specifications. Upon introduction of specifications those items will be priced accordingly.

Quality Pre Engineered Metal Buildings

 - 7'0" x 16'0" opening for owner door system.
 - Provide Building Fascia Door Trim, Gutter & Downspouts
 - Slab on Grade including structural design as required.

Exclusions

Excludes, the supply of and installation of all louvers, vents, eaves and soffits, and storefront glazing and windows, aluminum frames and glass.

Excludes overtime work done after-hours or on weekends unless pre-negotiated

Excludes concrete foundation, slab on grade, anchor bolts, foundation design, miscellaneous steel, special deflections.

Excludes plans, permits, fees and responsibility for compliance to codes other than stated in this proposal, secure storage, light gauge framing, demolition, guardrails, partition walls, ramps, signage, metal studs, louvers, liquidated damages and splash pans, all mezzanine construction, supplies and support and design.

Excludes special inspections, accessories, stairs & handrails, roof tie-ins, crane rail, misc. steel, concrete planks, canopy screens, canopy frames and roof screening

Excludes cost of security guard, water, and electricity during construction, dumpster. (Provided by others), engineering and staking, traffic and pedestrian control.

Excludes noise and dust control barriers.

MEMORANDUM

DATE: August 23, 2022

TO: Board of Directors

Temescal Valley Water District

FROM: General Manager

SUBJECT: Sludge Study

BACKGROUND

Please see the attached Capital Project sheet for the complete project. Phase 1 includes a study to better understand the sludge generation, treatment and drying process, including present and future volumes. With the laws changing yearly that restrict disposal – future sludge processing may require heat drying, pelletizing or other disposal methods. This study is the first step to a future sludge processing design.

ACTION REQUESTED

Approve the proposal from Dudek to perform the study.

FISCAL IMPACT

Not to exceed \$80,000

RECOMMENDATION

To be made by the Board of Directors:

Respectfully submitted,

Jeff Pape

General Manager

Established in 1965

Project Name: Sludge Processing Facility with Odor Control

Project Department: Sewer Treatment

CIP Project No.: S-1-2021 **Total Project Cost:** \$ **3,295,000**

Project Description:

Sludge drying is becoming increasingly difficult without relying on the beds and bag system. Both of these systems can create odors when the sludge is removed from a drying bed or bag and placed in trucks for removal. This project will provide for the development of an additional process that will dry sludge into a biosolid that can be removed offsite for disposal. The facility would have high volume processing capacity and odor control. We will research different systems and process types for the most cost effective system. This will need a permit amendment from the Regional Board and a So Cal AQMD permit.

Budget Summary by Phase:

Phase	F	Y 21-22	F	Y 22-23]	FY 23-24		Total
Research	\$	60,000						\$ 60,000
Design	\$	70,000	\$	80,000				\$ 150,000
Permitting/Environmental			\$	85,000				\$ 85,000
Construction			\$	500,000	\$	2,500,000		\$ 3,000,000
Startup								\$ -

July 11, 2022

Jeff Pape, General Manager Temescal Valley Water District 22646 Temescal Canyon Road Temescal Valley, CA 92883

Subject: Sludge Processing Facility with Odor Control - Design Report

Dear Mr. Pape:

Dudek is pleased to provide this proposal for the evaluation of the sludge handling process at Temescal Valley Water District's (District) Water Reclamation Facility (WRF). We understand that the WRF has undergone several recent process changes including the addition of primary clarification, expansion of sequencing batch reactors, and expansion of the aerobic digesters. These changes have resulted in reduced sludge production and less odor generation when using geotextile dewatering bags. The purpose of this scope of work is to ultimately provide the District with a planning-level estimate of future sludge processing requirements. The following scope of work lists the tasks required to develop that estimate.

1 Proposed Scope of Work

The following tasks are proposed:

- WRF site visit with key District Staff, Dudek Project Manager and Project Engineer
- Information request and review
- Sampling protocol Dudek and District Staff will develop a protocol for measurement and sampling of various streams within the WRF, including but not limited to influent flow rates and BOD/TSS/VSS/H₂S concentrations of influent, primary effluent, primary sludge, waste activated sludge, digested sludge, and dewatered cake.
- Mass flow model Dudek will develop a model using sampling data to calculate volatile solids transport within the WRF. The model will be used to track current sludge production and allow the District to estimate future sludge production and characteristics.
- Technical Memorandum Dudek will produce a draft TM summarizing its findings, model development, model results, and estimates of future sludge production at the WRF. The TM will document the WRF's existing dewatering capacity (centrifuge and geotextile dewatering bags) and determine when dewatering expansion will be required. A Zoom meeting will be conducted to review the TM and field District comments. A final TM will be submitted to the District in PDF format.

Exclusions

Dudek has not included the following scope items: physical sampling, laboratory fees, selection or design of dewatering equipment.

2 Proposed Fee

Dudek estimates a not-to-exceed fee of \$80,000 to complete the proposed scope of work. Our proposed fee is valid for up to 90 days from the date listed in this proposal. Again, we are pleased to have the opportunity to be of continued service to you. Dudek intends to provide the highest quality and most responsive service to the District. If you have any questions or wish to discuss our proposal, please contact me at 760.479.4123, gguillen@dudek.com

Sincerely,

Greg Guillen, PhD, PE Project Manager

TVWD drought status and water supply...It's time to Step It Up!

In response to decreasing statewide water supplies, Governor Newsom is banning the watering of ornamental grass for commercial customers as of June 1, 2022. The ban does not include turf at residences or turf used for recreation or community purposes. This mandate will affect TVWD's commercial & HOA customers. Additionally, The Metropolitan Water District of Southern California is requiring that more than 6 million people in parts of Los Angeles, San Bernardino, and Ventura counties—who rely on State Water from northern California -- restrict outdoor watering to just one day per week due to rapidly worsening drought conditions. This mandate DOES NOT currently apply to TVWD customers.

TVWD's water supply and response actions

TVWD relies on water imported from Northern California; however recent water infrastructure investments have created local supply and storage at Diamond Valley Lake that is getting us through for now. But, we need all customers to do their part to **STEP IT UP** and slow your water flow. Using less water now may help prevent mandatory water use restrictions in the future.

TVWD has entered into Stage II–Water Alert status of its Water Conservation Program, residential customers are asked to reduce their water use from 2020 levels with a goal to reach an overall District wide Stage II reduction of 25%. If the State or The Metropolitan Water District of Southern California requests future mandatory reductions, TVWD will be forced to implement an administrative and/or drought fine policy as a tool to encourage efficient water use.

The full details of TVWD's Conservation Program can be viewed online at www.temescalvwd.com.

ACTIONS YOU MUST TAKE TODAY

- Odd numbered houses may irrigate on Sunday, Tuesday and Thursday.
- Even numbered houses may irrigate on Monday, Wednesday and Saturday.
- Residential irrigation is limited to 10 minutes per station per day between the hours of 9 PM and 6 AM.
- Non-residential irrigation such as Parks, HOA irrigation meters, recreation fields, and school grounds irrigation are limited to 10 minutes per station per day between the hours of 9 PM and 6AM and may water on Monday, Wednesday and Friday.
- The application of potable, non-potable or recycled water to outdoor landscapes in a manner that causes runoff, such that water flows onto adjacent property, non-irrigated areas, private and public walkways, roadways, parking lots or structures is prohibited. Runoff is defined in this section as visible water running in a curb, gutter or swale.
- There shall be no washing down of driveways, parking lots, or other paved surfaces.
- No potable water irrigation of turf on public street medians.

August 4, 2022

Temescal Valley Water Department 22646 Temescal Canyon Road Temescal Valley, CA 92883

RECEIVED AUG 0 8 2022

Attention: Jeff Pape

Dear Jeff,

The purpose of this letter is to provide Temescal Valley Water Department with Trilogy at Glen Ivy Maintenance Association's proposed changes to our watering plan to comply with the imposed restrictions to landscape watering.

At our last meeting, you stated we would need to reduce our water consumption by 25%. Trilogy and O'Connell have worked together to create a plan that will meet your stated goal. As per your communication regarding water restrictions, STAGE II – WATER ALERT, section 3 states:

With permission by TVWD this provision does not apply to landscape irrigation systems using water efficient devices, including but not limited to weather-based controllers and drip/micro irrigation systems upon the commitment to cut use by 25%

Attached you will find a letter from O'Connell Landscape that details the changes that have already been implemented. With our Weathertrak watering system and drip line system we meet all the requirements stated to be in compliance with water restrictions. In addition, we have worked diligently with O'Connell to reduce overspray and runoff and our regular monitoring of our nighttime watering has shown that those efforts have been very successful.

Trilogy at Glen Ivy has always worked diligently with TVWD to adhere to any restrictions placed and we continue that intention moving forward. We suffered severe and costly landscape loss with the previous water restrictions several years ago and appeared to bear an inordinate burden compared to our neighboring communities. We ask that TVWD approve our plan to reduce our water consumption which will meet your stated goals while maintaining at least some viability of our landscape and the value of our community's homes.

Please let us know if these restrictions meet your approval. Thank you and we look forward to continuing our partnership with TVWD.

Best Regards,

Trilogy at Glen Ivy Maintenance Association 24503 Temescal Valley Parkway Temescal Valley, CA 92883

7-19-22

O'Connell Landscape watering schedules proposed to Trilogy at Glen lvy (currently in place) going forward:

All Weathertrak controllers are using "ET user" programs. This allows us to use ET and have control over the days on, to coincide with our daily and weekly maintenance schedules.

Water to the turf areas was reduced by 25% one month ago as a test, per our meeting with TVWD asking to reduce usage by 25%. The turf has shown minimal stress even with the recent high temperatures.

Programs are as follows for all canyons:

- -Turf (5 days a week) 3 minutes 2 start times with a 30 minute soak time between starts
- -Planters (4 days a week) 5 minutes 2 start times with a 30 minute soak time between starts.

These watering times allow for the landscape to stay alive during the summer months. Some stress will be present in the landscape.

Managing through the 2020 - ?? Drought

June 14, 2022: Commissioner Touton Calls for 2 – 4 MAF of Water Reductions in 2023

One Water Approach Addresses Uncertainties

Maintain reliable supply from the Colorado River

Modernize and secure supply reliability for the State Water Project

Complete distribution system improvements to allow water to move through region

Meet future demand by expanding local supply, including Pure Water Southern California

Eliminate non-functional turf

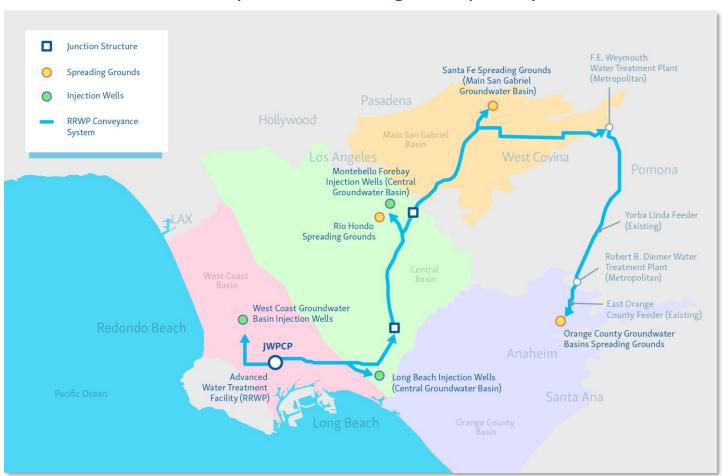

Interconnections To Eliminate SWP Dependent Areas

Multiple projects underway to allow other Metropolitan supplies to move into these areas

Large-Scale Recycled Water Provides Climate Resilience

Up to 150 million gallons per day

Lessons from Living in the Dash

- Record-breaking drought and warming climate accelerate our need to change
- This disruption is unacceptable:
 We commit to equivalent level of water supply reliability
 We must improve our water efficiency
- Bold action needed, and we will lead this adaptation One Water

Board of Directors Temescal Valley Water District

Re: Water and Sewer Operations – July 2022

Dear Board Members:

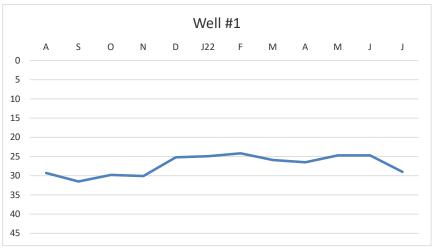

Temescal Valley Water District operations personnel perform the following tasks on a regular and routine basis:

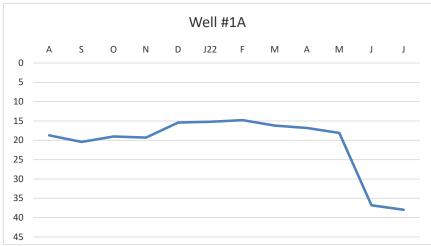

- Managed <u>387.4</u> acre-feet of water through system.
- Collected weekly potable water samples and Quarterly Disinfectant Byproducts samples as required by the State Water Resources Control Board, Division of Drinking Water. Collected routine wastewater monitoring samples as well as Quarterly, Semi-annual, and Annual samples as required by Regional Water Quality Control Board.
- Submitted monthly SMR and Report to the Regional Water Quality Control Board for: Temescal Valley Wastewater Reclamation Facility.
- Submitted monthly reports to the State Water Resources Control Board, Division of Drinking Water for: TVWD distribution system monitoring.
- Meters read 6,392.
- 5 shut offs.
- Responded 78 service calls.
- Installed 4 meters for the various developers.
- Responded to <u>70</u> USA Dig Alerts to mark District underground utilities.

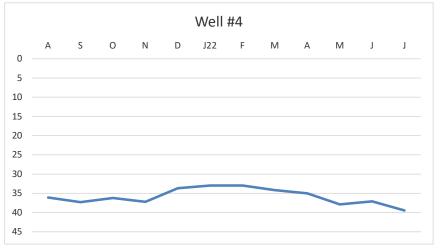

In addition to the above regular and routine tasks we also performed the following operational tasks.

- <u>1</u> load of biosolids hauled off this month.
- Annual instrument calibrations for the Treatment Facility conducted by outside contractor.

- Contractor installed a new motor for the Dewatering Well to replace a failed unit.
- Staff assisted contractor to repair a reclaimed line leak and relocated a service line.
- Vactor Service contractor brought in to clean the Retreat Sewer Lift Station and the EQ wet well at the Treatment Facility.
- New toilets installed in the Ops. Bldg. restrooms to replace older less efficient models.
- New valves for the air lines installed on SBR #4 & #5 to replace leaking original valves.

TEMESCAL VALLEY WATER DISTRICT ENGINEERING DEPARTMENT

DISTRICT ENGINEER'S MONTHLY REPORT

Date: August 18, 2022

To: Jeff Pape, General Manager

From: Justin Scheidel, District Engineer

Subject: Engineering Activities Update for the Month of August 2022

Following is a summary of the status of current engineering projects:

PLAN CHECKING & DEVELOPER RELATED PROJECTS

Terramor (10555-17 Tracts 38051-1, 2, and 3): Second plan check has been reviewed and accepted. Waiting to sign final mylars for construction.

Track 37155: Third plan check complete, waiting for fourth submittal.

AS-NEEDED ENGINEERING SERVICES

Status

General Engineering Initiated During FY 2022/23

Project 1401.2201: As-Needed Potable Water Engineering for FY 2022/23: Development of the district

engineering report and attendance of the District's board meeting.

Project 1401.2202: As-Needed Wastewater Engineering for FY 2022/23: Conducted as-built research for

various projects to be designed by developers and other municipalities.

Project 1401.2203: As-Needed Non-Potable Water Engineering for FY 2022/23: Conducted as-built

research for various projects to be designed by developers and other municipalities.

Project 1401.2204: Potable Water Studies for FY 2022/23: No activity this month.

Project 1401.2205: GIS/Map Updates for FY 2022/23: No activity this month.

Project 1401.2206: Wastewater Studies for FY 2022/23: No activity this month.

CAPITAL IMPROVEMENT PROJECTS

Status

Project 1401.2008: DWR LAM Validation: The second batch of information provided by DWR has been

reviewed, corrected, and returned to DWR for processing. We are currently waiting

on direction from DWR regarding the next steps.

Project 1401.2009: Manhole Rehabilitation Project: A public bid opening was held for this project but

only one bid was received. We are currently reformatting this project to separate the frame and cover rehabilitation from the coatings portion of the project to encourage

more contractors to propose on the project.

Project 1401.2207: Wildrose Reservoir Design: The geotechnical engineering and surveying field work

has been completed for the project. We are currently waiting for the field obtained

information to be processed and sent to us so we can begin our design.
